Report on Mechanism of Drug Action

Date: 12/08/2023

Attendees: 74

Name of Speaker: Mr. Pavankumar P. Wankhade

Topic of session: Mechanism of Drug Action

Designation: Assistant Professor

Organization: Dr. D. Y. Patil College of Pharmacy, Akurdi, Pune

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

GPAT preparation and qualification increases the understanding and level of Pharmacy education of students which contributes them to opting for good jobs and helps in their professional work. With the aim of providing information and preparation aspects for the GPAT competitive exam GPAT Co-ordinator Mr. P. P. Wankhade had organized a session for Third Year and Final Year students on the topic Mechanism of Drug Action. He guided the students more extensively with understanding the concept of target of drug action and students were also able to learn what are enzymes, ion channels, transporters and receptors along with the mechanism of action of antiepileptic drugs, receptor theory, and types of receptors. At the end of the session, students were allowed to interact and also clear their doubts regarding the topic. Total 50 attendees were present for the session. At last, the session was enlightened by the interesting questions answer session related to previous year questions from GPAT exam. The session was useful and informative to all student

Report on Strategy and Tips for Preparation of GPAT and GATE Examination

Date: 13/10/2023

Attendees: 84

Name of Speaker: Mr. Mritunjay Hiremath

Topic of session: Abroad Study and Career Counseling

Designation: Director

Organization: Interdewise Education Private Ltd.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

Dr. D. Y. Patil College of Pharmacy had organized a session on Abroad Study and Career Counseling. The session on "Abroad Study and Career Counseling" provided valuable insights into the various opportunities available for students seeking to pursue education overseas. Experts in the field discussed essential steps, including selecting the right course and university, understanding admission requirements, applying for scholarships, and obtaining student visas. The session also focused on the importance of career counseling, advising students on how to align their academic pursuits with long-term professional goals. Additionally, participants received tips on adapting to different educational systems and cultures, ensuring a smooth transition. Overall, the session served as an informative platform for students to make well-informed decisions about studying abroad and shaping their future careers.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

Dr. D. Y. Patil College of Pharmacy had organised a session on "Strategy and Tips for Preparation of GPAT and GATE Examination 2024" on 08 January 2024.

The speaker for the session was Mr. Prathmesh Jambulkar Alumni Student of our college, GPAT-2023 Qualified (AIR-180) NIPER 2023 (AIR-79) Qualified, GATE 2023 Qualified Currently Pursuing MBA (Pharm) at NIPER Mohali. He guided our students regarding the reference books for Preparation, importance of time management during Preparation, preparation of own time table for study, group discussion with friends, Mock Test Series, self-confidence, motivation, avoid distraction, revision of topics. Prathmesh share his personal experience regarding how to prepare for examination, how to preparing own notes as per the understanding.

This webinar was coordinated by Mr. Pavankumar Wankhade.

Session delivered by Mr Prathamesh Jambulkar on Strategy and Tips for Preparation of GPAT and GATE Examination on 08/01/2024

Report on The scope of Management as a career option after pharma graduation

Date: 10/01/2024

Attendees: 74

Name of Speaker: Ms. Laxmi Charipalli, Ms. Bhavita Poojari and Ms. Minal Chaudhari.

Topic of session: The scope of Management as a career option after pharma graduation

Designation: Deputy Placemnet Secretary

Organization: Welinkar Institute of Management Development and Research, Mumbai.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

Dr. D. Y. Patil College of Pharmacy in collaboration With IPASF-Pune branch had organised a session on "The scope of Management as a career option after Pharma Graduation" on 10 January 2024. The speaker team for the session was from Welinkar Institute of Management Development and Research, Mumbai faculties named Ms. Laxmi Charipalli, Ms. Bhavita Poojari and Ms. Minal Chaudhari. It was truly enlightening session on the expansive possibilities in post-graduation management studies after completing our pharmaceutical degree. They emphasized on the key aspects like Industry interactions, exchange programs, networking opportunities, gaining a global prospective, and developing the necessary skills for personality development. They also offered various MBA courses along with Hybrid PGDM's about pharmaceutical domain. The session was very informative and interactive. By the end of the session students cleared all doubt regarding management & Pharma corelation. This Session was coordinated by Mr. Pavankumar Wankhade (Competative Exam Incharge), Ms. Aishwarya Patil (Guest Session Incharge) & IPASF-DYPCOP Mr. Mukesh Mohite (Faculty Incharge) & Mr. Miten Joshi (Student Head) and Team including Mr. Raj B, Sanket P, Yash B & Ms. Darshita M.

Date: 22/01/2024

Attendees: 25

Name of Speaker: Dr. Rajendra Patil

Topic of session: Alkyl Halide

Designation: Assistant Professor

Organization: JSPM's Rajarshi Shahu College of Pharmacy and Research, Tathawade, Pune

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guidance session on "Alkyl Halides for GPAT Preparation" offered a detailed exploration of the chemistry behind alkyl halides, a fundamental topic for the Graduate Pharmacy Aptitude Test (GPAT). The session covered the structure, classification, and properties of alkyl halides, along with key reaction mechanisms such as nucleophilic substitution (SN1 and SN2) and elimination (E1 and E2) reactions. Emphasis was placed on understanding the factors influencing these reactions, including the role of solvents, temperature, and the nature of the leaving group. The session also provided practical tips for solving related problems, highlighting common pitfalls and strategies for accurate problem-solving. Overall, it was an enriching session that equipped students with the essential knowledge and techniques needed to excel in the GPAT exam.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guidance session on "Carbonyl Compounds for GPAT Preparation" provided an in-depth overview of the key concepts and reactions related to carbonyl compounds, crucial for the Graduate Pharmacy Aptitude Test (GPAT). The session covered the structure, nomenclature, and various functional groups of carbonyl compounds, including aldehydes, ketones, carboxylic acids, and their derivatives. Key reaction mechanisms such as nucleophilic addition, oxidation, and reduction were thoroughly explained, with emphasis on understanding their relevance to pharmaceutical chemistry. The session also included practice questions and tips on how to approach related problems in the GPAT, ensuring students were well-prepared to tackle this essential topic. Overall, it was a comprehensive and informative session aimed at strengthening students' knowledge and confidence for the exam.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

Dr. D. Y. Patil College of Pharmacy, Akurdi had organized a Workshop on date 23 February 2024, on Topic 'A Brainstorming Guidance for GPAT, NIPER, DI, Pharmacist Competitive Examination Preparation" By Mr. Sachin Jadhav, Founder Fundamental Pharmacy Guidance Center. He is 6 times GPAT, 1 NIPER, ESIC, NHRM, DMER qualified. He guided our students about importance of GPAT examination, how to prepare for examination, reference books for examination, paper solving strategy. He gave information about preparing notes through reading basic chapter then read interrelated chapters, subject and after that solve MCQ. He also gave information about DI, Pharmacist Competitive Examination

The session was very informative and interactive. By the end of the Workshop students were knows how to prepare GPAT, NIPER, DI, Pharmacist Competitive Examination.

This webinar was coordinated by Mr. Pavankumar Wankhade and Ms. Aishwarya Patil.

Report on Strategy and Tips for GPAT-2024 Examination

Date: 31/05/2024

Attendees: 74

Name of Speaker: Ms. Vaishnavi Ghadge

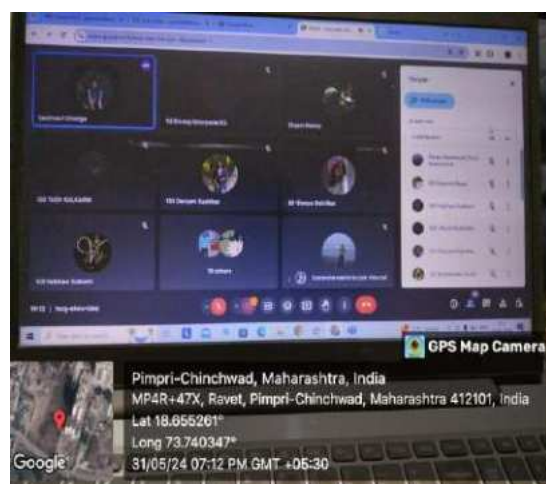

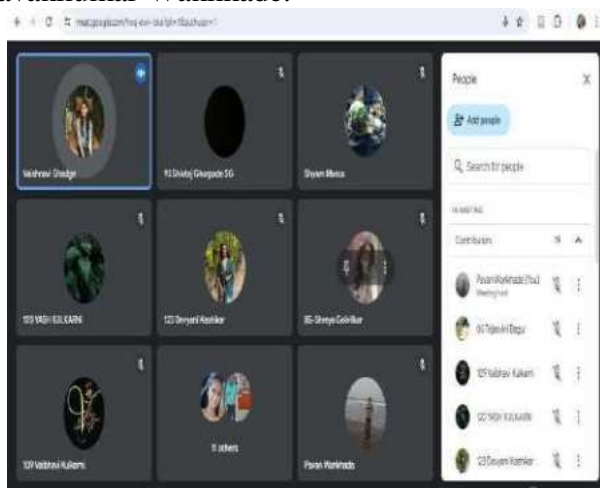

Topic of session: Strategy and Tips for GPAT-2024 Examination

Designation: Alumni student

Organization: Pursuing MBA (Pharm) at NIPER Hyderabad

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

Dr. D. Y. Patil College of Pharmacy organized a webinar on the topic "Strategy and Tips for GPAT-2024 Examination" on May 31, 2024. The speaker for the session was Ms. Vaishnavi Ghadge, an alumni of our college, GPAT-2023 Qualified (AIR - 240), NIPER 2023 (AIR - 80) Qualified, currently pursuing Pharma MBA at NIPER Hyderabad. She guided our students on last-week preparation strategies, the types of questions asked in the exam, and how to manage time during exams. She highlighted the number of questions to be attempted depending on the level of questions asked, how to avoid negative marking, and the do's and don'ts on exam day. She shared her experience and advised that students should remain calm and not read any new topics. She discussed new changes in the exam, such as a time-bound section (05) with an allotted time. The session was very informative and interactive. By the end of the webinar, students had cleared all their doubts regarding the GPAT-2024 Examination. This webinar was coordinated by Mr. Pavankumar Wankhade.

Session delivered by Ms. Vaishnavi Ghadge on Strategy and Tips for GPAT-2024 Examination on 31/05/24

Report on Designing of PhD Protocol and Demonstration of Auto analyser to M. Pharm Students

Date: 01/06/2023

Attendees: 20

Name of Speaker: Dr. Vishnu Thakare

Topic of session: Designing of PhD Protocol and Demonstration of Auto analyser to M. Pharm Students.

Designation: Founder, Director

Organization: Scitesla Mumbai

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

A guest session on "Designing of PhD Protocol and Demonstration of Auto Analyser" was conducted for M. Pharm students to enhance their understanding of research methodology and analytical techniques. The session focused on the essential steps in designing a PhD research protocol, including setting clear objectives, conducting a thorough literature review, selecting appropriate methodologies, and ensuring ethical compliance. Additionally, the demonstration of the auto analyser provided students with hands-on experience in operating the equipment, understanding its applications in pharmaceutical analysis, and interpreting results accurately. This session aimed to bridge the gap between theoretical knowledge and practical skills, equipping students with the tools needed for successful research and quality control in the pharmaceutical industry.

Date: 07/06/2023

Attendees: 26

Name of Speaker: Dr. Vishnu N. Thakre

Topic of session: Future Perspective in Pharmacy Graduates

Designation: Founder and Director

Organization: Scitesla Pvt. Ltd

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Future Perspectives in Pharmacy Graduates" offered valuable insights into the evolving role of pharmacy professionals in the healthcare sector. The session focused on emerging trends and opportunities for pharmacy graduates, emphasizing the expanding scope of their roles beyond traditional dispensing. Participants learned about the increasing demand for pharmacists in areas such as clinical practice, pharmacogenomics, regulatory affairs, and healthcare management. The session also highlighted the importance of adapting to advancements in technology, such as tele pharmacy and digital health, which are reshaping the pharmaceutical landscape. Overall, the session provided attendees with a broader perspective on the future career opportunities available to pharmacy graduates and the skills necessary to thrive in a rapidly changing industry.

Report on Polymerization Mechanisms and Kinetics

Date: 02/09/2023

Attendees: 30

Name of Speaker: Dr. Paresh Mahaparale

Topic of session: Polymerization Mechanisms and Kinetics

Designation: Professor

Organization: Government college of Pharmacy Aurangabad

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

A guest session on "Polymerization Mechanisms and Kinetics" was organized to provide M. Pharm students with in-depth knowledge of the fundamental processes involved in polymerization. The session covered various polymerization techniques, including addition and condensation polymerization, highlighting the mechanisms through which monomers are converted into polymers. Key concepts such as reaction kinetics, the role of catalysts, and the factors influencing polymerization rates were discussed in detail. The session also emphasized the significance of understanding polymerization kinetics for the design and optimization of pharmaceutical polymers used in drug delivery systems. This informative session aimed to enhance students' grasp of polymer chemistry, particularly in relation to pharmaceutical applications, fostering a deeper appreciation of polymer science in drug development.

*Session delivered by Dr. Paresh Mahaparale on Polymerization Mechanisms and Kinetics

Topic of session: Green composites materials for drug delivery

Designation: Professor

Organization: Yashoda College of Pharmacy Satara.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

A guest session on "Green Composition Materials for Drug Delivery" was conducted to introduce M. Pharm students to sustainable and environmentally friendly approaches in pharmaceutical formulation. The session focused on the use of green chemistry principles in the development of drug delivery systems, emphasizing the importance of using biocompatible, biodegradable, and non-toxic materials. Key topics included the exploration of natural polymers, plant-based excipients, and eco-friendly processing methods to reduce the environmental impact of pharmaceutical products. The session aimed to inspire students to consider sustainable alternatives in their research, highlighting the potential of green materials in creating safer, more effective drug delivery systems that align with the growing demand for sustainability in the pharmaceutical industry.

Topic of session: Quality Risk Management and Pharmaceutical Quality system

Designation: Professor

Organization: Government College of Pharmacy Karad

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Quality Risk Management and Pharmaceutical Quality System" provided valuable insights into the principles and practices that ensure the quality and safety of pharmaceutical products. The session focused on how quality risk management (QRM) can be integrated into the pharmaceutical quality system to identify, assess, and mitigate potential risks throughout the product lifecycle. Participants learned about the importance of establishing robust processes for risk identification, evaluation, and control, and how these processes contribute to regulatory compliance and patient safety. The session also covered the role of risk management tools, such as Failure Mode Effects Analysis (FMEA) and Risk Priority Numbers (RPN), in improving decision-making. Overall, the session equipped attendees with essential knowledge on implementing an effective QRM strategy within the pharmaceutical industry.

A guest session on "Drug Discovery and Development" was organized to provide M. Pharm students with an in-depth understanding of the complex process involved in bringing a drug from concept to market. The session covered key stages in drug discovery, including target identification, lead compound screening, preclinical testing, and clinical trials. Experts discussed the challenges faced during the development process, such as efficacy, safety, regulatory approvals, and market dynamics. Additionally, the session highlighted the importance of interdisciplinary collaboration, innovative technologies, and personalized medicine in modern drug development. This session aimed to equip students with a comprehensive overview of the drug development pipeline, preparing them for future roles in pharmaceutical research and development.

Organization: SGPS College of Pharmacy Akola

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "How to Design Research Protocol" provided participants with a comprehensive understanding of the steps involved in creating an effective research protocol. The session focused on the importance of clearly defining the research question, formulating hypotheses, and selecting appropriate research methodologies. Ethical considerations, such as informed consent and confidentiality, were emphasized as critical components in the design process. Attendees learned how to choose suitable sampling methods, data collection techniques, and tools for analysis. Additionally, the session highlighted the need for a detailed timeline, budget, and resource planning to ensure the research's feasibility and alignment with its goals. Overall, the session equipped participants with the knowledge to design well-structured and ethically sound research protocols.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Green Chemistry" provided participants with a thorough understanding of the principles and applications of sustainable chemistry practices. The session highlighted the importance of reducing environmental impact by designing chemical processes that minimize waste, energy consumption, and the use of hazardous substances. Attendees learned about the twelve principles of green chemistry, such as the use of renewable feedstocks and the design of safer chemicals. The session also explored real-world examples of green chemistry innovations in various industries, emphasizing their potential to drive both environmental and economic benefits. Overall, the session equipped participants with valuable knowledge on how green chemistry can be integrated into research and industrial practices to promote sustainability.

The guest session on "Career Goal Setting for Pharmacy Graduates" provided valuable guidance on how pharmacy graduates could effectively plan and achieve their professional goals. The session emphasized the importance of self-assessment, identifying strengths and weaknesses, and aligning personal aspirations with the evolving opportunities in the pharmacy field. Students learned about the SMART (Specific, Measurable, Achievable, Relevant, Time-bound) framework for setting clear and actionable career goals. The speakers also highlighted the significance of gaining diverse experiences, pursuing specialized certifications, and engaging in professional networking to enhance career prospects. Overall, the session equipped pharmacy graduates with the tools and strategies needed to navigate their career paths and succeed in a rapidly changing industry.

Report on Pharmaceutical Industry: An Overview

Date: 18/09/2023

Attendees: 100

Name of Speaker: Dr. Gayatri Ganu

Topic of session: Pharmaceutical Industry: An Overview

Designation: Director

Organization: Mprex Healthcare, Wakad Pune

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Pharmaceutical Industry: An Overview" provided participants with a comprehensive understanding of the pharmaceutical sector's structure, functions, and key players. The session covered the stages involved in drug development, from research and development (R&D) to manufacturing, regulatory approval, and marketing. Participants learned about the industry's role in improving public health through the discovery and distribution of medications, as well as the significant challenges it faces, including stringent regulations, high research costs, and the need for continuous innovation. The speakers also discussed emerging trends, such as biotechnology, personalized medicine, and the impact of digital health technologies. Overall, the session offered valuable insights into the complexities of the pharmaceutical industry and the diverse career opportunities it provides for pharmacy graduates.

Report on Good Manufacturing Practice

Date: 10/10/2023

Attendees: 48

Name of Speaker: Mr. Shrikrishna Chunekar

Topic of session: Current Good Manufacturing Practice

Organization: Serum Institute of India Ltd.

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Good Manufacturing Practice (GMP)" provided participants with an in-depth understanding of the essential standards and guidelines that ensure the quality, safety, and efficacy of pharmaceutical products. The session covered the key principles of GMP, including the importance of proper documentation, quality control, and maintaining a clean and controlled manufacturing environment. Participants learned about the critical role of GMP in minimizing risks such as contamination, errors, and variability in production processes. The speakers also discussed regulatory requirements, inspections, and the continuous monitoring needed to ensure compliance with GMP standards. Overall, the session equipped attendees with the knowledge of how GMP practices are implemented in the pharmaceutical industry to ensure product integrity and consumer safety.

Report on Parenteral Products

Date: 14/10/2023

Attendees:71

Name of Speaker: Sachin Gorade

Topic of session: Parenteral Products

Organization: Lupin Biotech, Ghotawade

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

Parenteral products are medications administered through routes other than the digestive system, typically via injection or infusion. These products are crucial in delivering drugs directly into the bloodstream, ensuring rapid absorption and immediate therapeutic effects. Common forms of parenteral products include intravenous (IV), intramuscular (IM), and subcutaneous (SC) injections. They are used for various medical purposes, including the administration of vaccines, antibiotics, and chemotherapy. Due to their direct entry into the body, parenteral products require strict sterility and proper handling to prevent infections and ensure efficacy. Their development involves advanced technologies to ensure precise dosing, stability, and patient safety.

Report on Access to Medicine: An Indian Perspective

Date: 27/10/2023

Attendees: 87

Name of Speaker: Mrudula Bele

Topic of session: Access to Medicine: An Indian Perspective

Designation: Patent Consultant

Organization: NDMVP's College of Pharmacy

POs attended from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Access to Medicine: An Indian Perspective" provided valuable insights into the historical and current challenges surrounding healthcare access in India. The speaker highlighted how, in the past, high medication costs, limited healthcare infrastructure, and inadequate distribution networks were significant barriers for many Indians, particularly in rural areas. The session also discussed the critical role of government initiatives, such as the National Pharmaceutical Pricing Authority (NPPA) and the Jan Aushadhi Scheme, in addressing affordability and ensuring that essential medicines became more accessible. Additionally, the speaker emphasized the rise of India's generic medicine industry, which helped bridge the gap in healthcare accessibility by offering affordable alternatives to branded drugs. Despite progress, the session acknowledged that challenges like low awareness and regional disparities in healthcare access still remained a concern.

Report on Why PGDM after Graduation

Date: 10/04/2024

Attendees:

Name of Speaker: Mr. Sagar Deshmukh, Dr. Kalpesh Kuwar

Topic of session: Why PGDM after Graduation

Designation: Assistant Professor

Organization: DYP, PGDM Institute Akurdi, Pune

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Why PGDM after Graduation" provided a comprehensive overview of the benefits and career prospects associated with pursuing a Post Graduate Diploma in Management (PGDM) after completing undergraduate studies. The speaker shared insights into how PGDM programs offer specialized knowledge, practical skills, and industry exposure that can significantly enhance career opportunities. It was highlighted that PGDM graduates are well-prepared for leadership roles due to the focus on management, critical thinking, and problem-solving skills. The session also discussed the growing demand for business professionals in various sectors, emphasizing how a PGDM can open doors to diverse career paths in management, marketing, finance, and entrepreneurship. Overall, the session underscored the importance of a PGDM in fostering personal growth and professional advancement in an increasingly competitive job market.

Report on Eco Friendly and economic methods in various fields of pharmacy utilizing hydrtrophy, mixed solvency concept

Date: 28/05/2024

Attendees: 16

Name of Speaker: Dr. R.K.Maheshwari

Topic of session: Eco Friendly and economic methods in various fields of pharmacy utilizing hydrtroy,mixed solvency concept

Designation: Ex- Professor and Head

Organization: Pharmacy Department, SGSITS, Indore

POs attained from the session: PO2, PO5, PO6, PO8, PO9, PO11

The guest session on "Eco-Friendly and Economic Methods in Various Fields of Pharmacy Utilizing Hydrotrophy and Mixed Solvency Concept" explored innovative approaches to enhancing pharmaceutical formulations while prioritizing sustainability and cost-effectiveness. The speaker explained how hydrotrophy, a method of increasing the solubility of poorly soluble drugs using hydrotropic agents, was applied to improve drug delivery systems. Additionally, the session highlighted the mixed solvency concept, which involves the use of a combination of solvents to enhance the solubility of active pharmaceutical ingredients. These methods were presented as eco-friendly alternatives to traditional approaches, reducing the need for toxic solvents and minimizing environmental impact. The speaker also discussed how these techniques could make pharmaceutical processes more economical by reducing production costs and improving the efficiency of drug formulations.

Session delivered by Dr. R.K. Maheshwari on Eco Friendly and economic methods in various fields of pharmacy utilizing hydrtrophy, mixed solvency concept on 28/05/2024
